Dear Anthony,

Thank you for your generous donation of your artwork, valued at \$14,000, to FilmAid International, on the occasion of our Power of Film Benefit on November 20, 2013. We could not continue our work without your generous contribution.

The need now for FilmAid is as strong as ever. Our planet's 45 million refugees and other forcibly displaced persons, sheltered in camps around the world, are isolated from access to information resources. Reaching hundreds of thousands of people each year, FilmAid's community-centered mission focuses on three primary practices:

- Information and education. In places with no TV, no Internet, and very limited access to education, FilmAid produces and distributes community-based films on critical public health and safety issues such as nutrition, disease prevention, sex and gender based violence and conflict resolution.
- Skills training and self-empowerment. Through FilmAid's media arts training program, we teach young refugees basic filmmaking and digital media skills and provide them access to equipment and a platform to tell their own stories.
- Psychological relief and healing from trauma. Using mobile cinemas, we present screenings of feature films with universal appeal, providing joy, laughter and relief to those who need it most: communities ravaged by war, trauma and displacement.

Your commitment to FilmAid is essential to maintaining and expanding our programs, and we are sincerely grateful for your support of our mission to inspire and empower refugees and other communities in need – to help them imagine and create a better future.

Best Regards,

Simon Goff
Executive Director
